The open layout is ideal for entertaining and features a chef's kitchen equipped with a Viking 6-burner range, Thermador and Miele appliances, Sub-Zero refrigerator and freezer, built-in coffee station, wine fridge, and custom pantry. A richly paneled study includes built-ins and a concealed passage to a second private study, which also connects to the primary suite. The luxurious primary retreat offers dual closets and dressing areas, heated floors, steam shower, infrared sauna, and hidden access to both studies. The first floor also includes a media room with blackout curtains and a well-appointed wet bar, an exercise room with full-length mirrors and a large storage closet, and a guest suite with serene views of the grounds. Upstairs, a bedroom with beautiful creek views can function as a second primary suite and includes built-ins, a large bath, walk-in closet, and storage room. Two additional bedrooms each feature private baths. Outdoor living is unmatched, with views of the creek and trees from the negative-edge pool, spa, and well-manicured putting green. Recent upgrades include \$100K in landscaping, new pebble-surfaced pool and spa, epoxy garage floors, and custom landscape lighting. Smart-home enhancements include automatic shades, three new HVAC units with advanced filtration, tankless water heaters, whole-home water and humidity systems, Tesla chargers, upgraded irrigation, and whole-home speakers.
