DESCRIPTION

Architectural presence and intentional design define this modern Keen Homes residence in the heart of Lakewood, just moments from White Rock Lake. Built in 2017 and set along a welcoming tree-lined block, the home blends soaring contemporary lines with warm, livable spaces designed for both everyday comfort and elevated entertaining. Walls of strategically placed windows fill the home with natural light while maintaining exceptional privacy, highlighting the open, airy floor plan and impressive ceiling heights. The design-forward kitchen is anchored by an oversized quartz island with seating for six, a full wall of cabinetry surrounding the built-in refrigerator, double ovens, built-in microwave and a six-burner gas cooktop positioned beneath a window overlooking the pool and turf yard. A striking oversized tile feature wall adds architectural impact, flowing into the main living area with gas fireplace, dining space and wet bar. Downstairs includes a private guest suite with full bath and dedicated office. The primary retreat offers a true spa-inspired experience with heated ceramic tile floors, a dramatic full-wall dual shower, separate soaking tub and an oversized dual vanity with abundant storage. The expansive custom closet showcases a built-in dresser island and provides direct access to the laundry room for everyday convenience. Upstairs, a loft-style game room or secondary living space with wet bar creates an inviting entertaining hub, complemented by a nearby half bath. Each additional bedroom features its own en suite bath and walk-in closet, offering exceptional comfort and privacy. Designed for seamless indoor-outdoor living, the backyard showcases a pool and spa with tanning ledge and water feature, a covered patio with fireplace and remote-operated screen enclosure and a low-maintenance turf yard. Additional highlights include upgraded lighting throughout and thoughtfully selected modern finishes. Zoned to exemplary Lakewood Elementary.
