DESCRIPTION

Reimagined Traditional in Vickery Place - Originally built in 2000 and completely renovated to reflect today's modern aesthetic, this stunning traditional residence offers the perfect blend of timeless architecture and contemporary design. Thoughtfully reimagined from top to bottom, the home delivers a turnkey opportunity in one of the area's most sought-after neighborhoods. Striking black metal windows throughout create a bold architectural statement, flooding the interiors with natural light. This includes a wall of matching windows and doors entering in to the study which could also be a formal dining room. Inside, rich hardwood floors span most of the home, providing warmth, continuity, and elevated style. The heart of the home features a beautifully updated open kitchen and den concept — ideal for both daily living and entertaining. The kitchen flows seamlessly into the inviting family space with added windows in the book shelves that create perfect symmetry. The primary suite offers a true retreat, complete with separate closets that provide both luxury and functionality. Every space has been thoughtfully curated to balance sophistication with livability. Step outside to a fully transformed backyard oasis. Updated hardscaping, low-maintenance turf, and a covered pergola create an outdoor living space designed for year-round enjoyment — whether hosting guests or enjoying quiet evenings at home. Classic in structure yet modern in execution, this home offers the rare combination of location, style, and move-in-ready condition.
