DESCRIPTION

A rare expression of sophisticated soft contemporary design, this custom-built residence offers museum-quality architecture, exceptional craftsmanship, and effortless livability in the coveted Bradfield Elementary area of HPISD. Designed for the original owner with uncompromising attention to detail, the home features a curated palette of stone, steel, glass, and white oak. Light-filled spaces flow seamlessly beneath soaring two-story ceilings, ideal for both grand entertaining and everyday living. Dramatic living and dining areas are framed by clerestory and picture windows, creating gallery-like walls for art. The first-floor primary suite is a private retreat with fireplace, clerestory windows, and a spa-inspired bath with walls of custom white oak enclosed closets, a skylit open shower, and a jetted tub. The kitchen impresses with extensive custom cabinetry, leathered stone countertops, premium appliances, and a large marble island with more storage and seating areas. A private study adjacent to the kitchen features a built-in desk and file drawers, as well as a separate exterior access to the side yard area. The sleek utility room with sink and custom cabinets and powder room also enjoy this level. The second level offers a spacious open family-media room and two ensuite bedrooms, one being the size of a primary bedroom. Bath and closet spaces are very generous. Additional features include a floating steel, glass and stone architectural staircase, attached 2-car garage, and low-maintenance turfed outdoor space.
