DESCRIPTION

Built in 2018 and thoughtfully designed for both luxury and sustainability, this exceptional home seamlessly blends high-end finishes with cutting-edge efficiency. Marvin doors and windows, owned solar panels backed by three Tesla powerwall batteries, spray foam insulation, Nest smart controls, and a 50-year roof ensure lasting comfort and long-term value. A grand entrance sets the tone — lush professional landscaping and two striking art walls frame the approach, while double front doors open to an expansive living area bathed in natural light. Walls of glass sliding doors dissolve the boundary between indoors and out, revealing the resort-style backyard beyond. The gourmet kitchen is a chef's dream, appointed with a Bertazzoni cooktop and convection microwave, Sub-Zero refrigerator, double ovens, and a wine refrigerator with 150+ bottle capacity. The showpiece island is crowned with rare marble sourced from Bogotá, Colombia — a one-of-a-kind detail that anchors the entire space. This home offers four ensuite bedrooms, a dedicated study, an upstairs living area, and rich hardwood floors throughout. The owner's suite features a private sitting area and direct access to the backyard. Additional highlights include a three-car garage and elevator-ready closets — a rare and practical luxury. Outside, the private oasis delivers: a covered patio, pool with water feature, gas fire pit, turf lawn, and an eight-foot privacy fence. Ideally situated with easy access to Northaven Trail and premier private schools.
