DESCRIPTION

Homes like this don't come around often, a true neighborhood setting where every property sits on 2+ acres, giving you room to breathe and enjoy your own space. This 4-bed, 3.5-bath home brings together thoughtful design, high-end upgrades, and outdoor living that truly sets it apart. From the moment you walk in, you'll notice how open, bright, and welcoming it feels — with natural light pouring into the main living area and a gas fireplace creating the perfect place to gather. The kitchen is designed for real life and entertaining, completely open to the living and dining spaces, with custom cabinetry, generous counter space, and a large island where everyone naturally ends up. Whether it's busy mornings or hosting friends, this space makes it easy. The primary suite is isolated on the main level and is almost double the size you would expect, offering a quiet, private retreat, a spa-like bathroom, and plenty of closet space. The main level also includes 2 more bedrooms, a full bathroom, and a guest half bathroom. Upstairs, you'll find an additional bedroom plus a dedicated theater room — perfect for movie nights, game days, or just having a fun space to unwind. But what truly makes this home special is what's waiting outside. The backyard feels like your own private resort, complete with a heated pool and spa, an expansive deck, and a fully equipped outdoor kitchen that's ready for year-round gatherings. From summer pool days to cozy evenings under the lights, this is a space you'll never want to leave. The details here matter — mature landscaping, custom lighting, a circle drive for added convenience, plus both an attached 2-car garage and a detached 2-car garage for extra space and flexibility. With upgrades like spray foam insulation, a water softener system, updated HVAC, and a brand new roof in 2025, this home is as efficient as it is beautiful. This isn't just a home — it's a lifestyle. A place to relax, entertain, and enjoy every day just a little more.
