DESCRIPTION

Located in the heart of Preston Hollow and just steps from the park, this custom residence is a rare blend of thoughtful design, timeless architecture, and everyday livability. Built and personally lived in by the builder, every detail reflects a higher standard—from the Chicago brick façade with aluminum-clad windows to the intentional, highly functional floor plan. Spanning 5,963 square feet, the home offers 5 bedrooms and 5.5 baths, with both the primary suite and a private guest suite on the main level—ideal for long-term guests or multigenerational living. A dedicated office and exercise room add flexibility without compromising space. The kitchen was designed for how people actually live, seamlessly connected to the main living areas and supported by a full butler's pantry and wet bar, while expansive glass and natural light create an effortless indoor-outdoor flow. Upstairs, a game room offers an escape. Outside, a resort-style pool and heated screened-in patio deliver a true year-round retreat. Anchored by two fireplaces and finished with a high level of quality, this home delivers a turnkey living experience in one of Dallas' most coveted neighborhoods.
